Perstorp

Wheel Bins

Perstorp's wheel bins are designed to have a sleek look and be ergonomically efficient. Manufactured using injection moulding technology and high density polyethylene (HDPE). The bins are designed with durability in mind.

Designed to facilitate optimal stacking and enhance logistics, thus helping reduce CO2 emissions during transportation. Manufactured under the highest international quality standards in each field of activity (DIN, EN-840).

Available in a wide range of colours, we offer a complete series of accessories in order to cover any issue that may arise during waste collection. These parts can be easily installed by the user.

All the wheel bins can be customised with a series of options in order to enhance the tracking, identification and logistics by the waste collectors.

MGB120

Width	470

Product Feature

- International Standard (Certified according to EN 840)
- Interior & exterior surface by hygienic design
- High resistance to UV radiation
- Smoothly designed interior ensures optimum emptying
- Edge prevents rainwater from penetrating
- Deeper combs ensure optimum accommodation by the lifting device
- Various colour choices

Wheels

- Solid rubber tires
- Diameter: 200mm
- High stability
- Efficient corrosion protection

Specification

- Material : HDPE
- Dimension (unit : mm)
- Hub: Injection moulded Polyethylene
- Tyre: Vulcanised rubber
- Axle: Galvanised Steel

Customisation

- Company logos (thermal printed or sticker)
- QR Codes
- Serial numbers
- Locks

Product Feature

- International Standard (Certified according to EN 840)
- Interior & exterior surface by hygienic design
- High resistance to UV radiation
- Highly durable - 30 degrees and up to 80 degrees
- Smoothly designed interior ensures optimum emptying
- Edge prevents rainwater from penetrating
- Deeper combs ensure optimum accommodation by the lifting device
- Standard colour: Green

Wheels

- Solid rubber tires
- Diameter: 200mm
- Wheel rotation of 360 degrees
- Wheel foot breaking system (2 units)
- High stability
- Efficient corrosion protection

Customisation

- Company logos (thermal printed or sticker)
- QR Codes
- Serial numbers
- Locks

Specification

- Material : HDPE
- Dimension (unit : mm)
- Hub: Injection moulded Polyethylene
- Tyre: Vulcanised rubber
- Axle: Galvanised Steel

Weight (kg)	102kg ±3%
Thickness	1.5mm
Volume (litres)	1100

- Body Thickness 1.5 mm
- Side Holder Thickness 3.00 mm
- Wheel base thickness 4.00 mm
- Tolerance ± 0.3 mm
- Hot dip galvanization according to ISO 1461

Perstorp

Leach Bins

Perstorp's leach bins are designed to be durable and tough. As these bins are normally exposed to the harsh environments and are usually deployed in more rural areas.

Using thick metal sheets and sturdy metal beams and solid wheels to ensure a long product life and easy servcability.

Available in a wide range of colours, we offer a complete series of accessories in order to cover any issue that may arise during waste collection. These parts can be easily installed by the user.

All the Leach Bins can be customised with a series of options in order to enhance the tracking, identification and logistics by the waste collectors.

Perstorp

Recycling Bins

Perstorp's recycle bins are made to stand out. To be seen in public spaces to ensure efficient recycle waste collection is done right. These bins are made to withstand high temperatures and harsh UV lights.

We specialise in customising recycling bins so that the bins will reflect the interior decor of our customers. Also to make the bins more attractive and playful. Perfect for any shopping mall, condominiums, hotels, schools, sports facilities, restaurants and even public spaces.

The litter bins are manufactured with the least number of parts to facilitate assembly. **Perstorp's** recycle bins comes in a wide range of design and can be customised in various colours to suit each customers needs.

MetalPlas Recycling Bins

Perstorp's MetalPlas bins are made using durable polyethylene that will not rust, dent or crack easily. Paired with elegant stainless steel cover, this gives the bins a classy look. Suitable for both indoor and outdoor.

A wide range of colour choices are available. Comes also in special wood finish for that presitine look.

The bins can be customised with logos and various types of cover options

Stainless Steel Bins

Perstorp's modern and elegant stainless steel dustbins are made using SS304 and are polished with a hairline finishing. This bin can be used for a variety of purposes such as waste collection at shopping malls, offices, apartments, parks, healthcare facilities and even restaurants.

These bins have undergone rigorous testing hence it has good impact strength as compared to other bins in the market. It is also available in various powder coated colours and mirror finishing.

The litter bins are manufactured with the least number of parts to facilitate assembly. **Perstorp's** litter bins come in a wide range of design and can be customised in various colours to suit each customer's needs.

Perstorp

Medical Waste Bins

Progressing forward we have expanded our product line to meet the increasing demands for medical waste Bins (Clinical Bins). With the surge in COVID-19 cases globally. There is no denying that waste collectors are in dire need to step up their ability to deal with the influx of medical waste.

In order to tackle the issue, we had to come up with products that were ergonomically efficient at handling these dangerous biohazard elements. For example these bins are used in hospitals, clinics, quarantine centres and healthcare centres.

Most Importantly the governing body requires that these bins to be in bright yellow colour. Clearly labelled with the Biohazard logo as well SW 404 markings.

MGB Medical Waste Bins

MGB240MW/MWL

The MGB240MWL Clinical Waste Bin is a variance of the popular MGB240 which is specially designed to handle bio hazard waste. The bin come with two locks which ensures that content will be safely secured during transportation and keeping hazardous waste safe within the bin.

The bins are manufactured using the highest quality HDPE and is made in accordance to DIN 30740 and EN840. Logos and text on the bins can be customised accordingly to suit the customers needs

Injection moulded HD-Polyethylene,
UV-Stabilized for outdoor use.

Wheels:

Hub: Injection moulded Polyethylene

Tyre: Vulcanised rubber

Axle: Galvanised Steel

Temperature Range: -40°C to + 80°C

Max Load: 98 kg

Width	575
Length	720
Height	1070
Weight (kg)	12±2%
Volume (litres)	240

Lokcs with master key are installed on the MGB240M-WL to ensure no spillage during transportation

Custom markings for waste collectors to track weight and dates.

MGB660MW

660 Litre wheel bin version for biohazard waste.

Optional: **MGB660MWL** with master key locks

Width	915
Length	1340
Height	1260
Weight (kg)	41±2%
Volume (litres)	660

MGB120MW

The 120 litre wheel bin variant with standard biohazard markings.

Width	456
Length	553
Height	930
Weight (kg)	8±2%
Volume (litres)	120

Pedal Bins

Queue Up Stands and Signages

Perstorp's queue up stands are made using stainless steel to ensure long product life and easability to clean. Focused on making managing crowds a breeze. Belts can be customised in various colours and special wording and logos can be printed too.

Manufactured with the highest quality standards in stainless stel. They provide functional and design solutions, for the selective collection of different types of situation.

These stands and signages are manufactured with the least number of parts to facilitate assembly.

BikeBaju - Perstorp Cycling Team

Perstorp a leading waste bin company, has teamed up with BikeBaju , a renowned cycling apparel brand, to sponsor a new cycling team.

As two companies committed to innovation and sustainability, we are thrilled to support a team that shares our values and represents our brands. Cycling is not only an excellent way to promote a healthy lifestyle, but also an environmentally-friendly mode of transportation. By sponsoring this team, we hope to encourage more people to take up cycling and reduce their carbon footprint.

We believe that the combination of Perstorp's expertise in waste management and BikeBaju's knowledge in cycling apparel will create a powerful partnership. Together, we are confident that we can provide the team with the best equipment and support, helping them achieve their goals and perform at their best.

We are looking forward to seeing the team in action and are proud to be part of their journey towards success. This partnership demonstrates our commitment to promoting health, sustainability, and teamwork, and we cannot wait to see the positive impact we can make together.
